Cardstock and DSP measurements:

- Bubble Bath base card is a top folding standard card 14.85 x 10.5cm (or 5 1/2" x 4 1/4")
- The two Wildflower Birthday DSP pieces for the card front (before the arches are attached) and both 10.2cm x 7.2cm (or 4 1/8" x 2 5/8")
- The Basic White piece inside the card is 10cm x 8.8cm (or 4" x 3 1/4")

Instructions:

1. Create the top fold base card and burnish with a bone folder.
2. Score the front of the card horizontally at the half way mark and fold into a mountain. Burnish with a bone folder.
3. Adhere the two DSP pieces (sizing in measurements section above) to each section on the card front.
4. Using the second largest Everyday Arches die, die cut an arch in Basic White. Don't adhere to the card just yet.
5. Using the third largest Everyday Arches die, cut an arch from one of the monotone coordinating papers in the Wildflower Birthday DSP.
6. Adhere the DSP arch to the cardstock arch (leaving a uniform border all the way around).
7. Then adhere **the bottom half only** of the cardstock arch to the bottom half of the card front. Leave a similar amount of border at the bottom, as is left at each side.
8. The cake and floral piece at the top are both from the 2 die cut sheets that come in the DSP pack. This gives you lots of options for quick and easy cards with this DSP pack. You can view the full pictures of the die cut sheets **here in my store.** The die cuts are both attached to the arch with Dimensionals.
9. Gold emboss the birthday sentiment from Simply Said stamp set. Cut the words apart and then stack on top, securing together with a piece of Tear 'n Tape.
10. Add some more tape and remove the backing. Loop the Twisted Gold thread which will adhere to this tape at the back of the sentiment. Then attach the sentiment to the cake with Dimensionals.
11. Add three of the smaller low profile dots to the flower centre.
12. Attach the piece of Basic White on the inside of the card.
13. Die cut a banner of DSP using the smaller banner in the Stylish Shapes dies. Adhere to the bottom of the card with the bottom edge of the DSP banner about 2.2 cm or 7/8" from the bottom edge of the card.
14. Die cut one of the stitched squares from Stylish Shapes dies (the one that is 3.7cm or 1 1/2" square. Attach with Dimensionals, centred over the DSP banner. This is the piece that the easel rests against. Add numbers (or another sentiment or die cut shape) to the die cut.
